

Bayer CropScience LP P.O. Box 12014 2 T.W. Alexander Drive Research Triangle Park, North Carolina 27709 1-866-99BAYER (1-866-992-2937) http://www.bayercropscienceus.com Poncho[™] 600

EPA Reg. No. 264-789

For Use on Sweet Corn as a Seed Treatment Only for treatment of seed intended for planting in North Carolina.

EPA SLN. No. ID-060015

24(c) Supplemental Label

FOR DISTRIBUTION AND USE ONLY WITHIN THE STATE OF IDAHO

This label and the federal label for this product must be in the possession of the user at the time of pesticide application. Follow all applicable directions, restrictions, and precautions on this supplemental label and the main EPA-registered label. It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Bayer CropScience assumes no responsibility for this product's effect on seed germination or seedling performance. User understands and assumes all risks of adverse effects on seed germination and seed seedling performance that may arise as a result of the use of this product and User further agrees to hold Bayer CropScience harmless from injury resulting from such adverse effects.

Application of Poncho[™] 600 to sweet corn seed is to occur only in Idaho. Only for treatment of seed intended for planting in North Carolina.

DIRECTIONS FOR USE

CROP	INSECT PROTECTION	RATE PONCHO™ 600	
		mg a.i/Kernel	80,000 Unit of Seed
Sweet Corn	To aid in the protection of seed and seedlings	1.25	5.64 fl. oz. or
			166.7 mL

PONCHOTM 600 will aid in the protection of seeds and seedlings against injury by certain early season insects: Southern corn billbug; Chinch bug; Corn flea beetle; corn leaf aphid; Cutworm, black; Grape colaspsis; Seedcorn maggot; southern corn leaf beetle, Southern green stinkbug; White grub (including European, Chafer larvae, May/June beetle larvae; Japanese beetle larvae); Thrips, Wireworm.

Do not carry over treated sweet corn seed.

Plant-back Interval: Areas planted with treated seed may be replanted immediately with corn, rapeseed and canola. These areas may also be replanted after 30 days with cereal grains, grasses, nongrass animal feeds, soybeans, and dried beans. Do not plant any other crop in the treated area for at least one year after treated seeds are planted.

Labeling Of Treated Seed: Seed commercially treated with Poncho[™] 600 must be labeled in compliance with the *Federal Seed Act*. All bags containing treated seed must be labeled or tagged as follows:

- This seed has been treated with Poncho[™] 600 seed protectant, which contains clothianidin.
- Do not use treated seed for feed, food or oil processing.
- Store away from feeds and other foodstuffs.
- Wear long-sleeved shirt, long pants and waterproof gloves when handling treated seed.
- Dispose of all excess treated seed. Left over treated seed may be double sown around the headland or buried away from water sources in accordance with local requirements. Do not contaminate water bodies when disposing of planting equipment washwaters.
- Dispose of seed packaging in accordance with local requirements.
- · Treated seeds exposed on soil surface may be hazardous to wildlife. Cover or collect treated seeds spilled during loading.
